

# The YOUNG ENGINEERS, Inc.

engineering • manufacturing • aerospace fasteners

September 15, 2009

The YOUNG ENGINEERS, Inc. is proud to announce that our Quality Management system has been certified by Det Norske Veritas (DNV) to ISO9001:2000 and EN/JISQ/AS9100:2004 for the design and manufacture of precision components and specialty fastening products for the aerospace industry. Our Quality System has likewise been approved by the Federal Aviation Administration, and we have Technical Standard Order (TSO) C148 authorization on all applicable fastening products. We are also on the U.S. Defense Logistics Agency's Qualified Suppliers List for Manufacturers (QSLM) for Class 3 Threaded Fasteners (Cage Code 56958), and are one of only two companies in the world who have received Nadcap Fastener Manufacturer accreditation.

The YOUNG ENGINEERS, Inc. is an approved supplier to many aircraft and aerospace original equipment manufacturers; a partial listing includes:
