

The **YOUNG ENGINEERS**, Inc.

engineering • manufacturing • aerospace fasteners

March 10, 2020

The Young Engineers' Quality Management system has been certified by Det Norske Veritas (DNV) to ISO9001 and AS9100 for the design and manufacture of precision metallic and non-metallic components and specialty fastening products for the aerospace industry. Our Quality System is approved by the Federal Aviation Administration, and we have Technical Standard Order (TSO) C148 authorization on all applicable fastening products. We are also on the U.S. Defense Logistics Agency's Qualified Suppliers List for Manufacturers (QSLM) for Class 3 Threaded Fasteners (Cage Code 56958), and Nadcap certified for Chemical Processes.

The YOUNG ENGINEERS, Inc. is an approved supplier to many aircraft and aerospace OEMs, MROs and VIP outfitters; a partial listing includes:
